Summary

Full-Stack Developer with **1.5 year** of experience in building dynamic, scalable web applications. Proficient in React.js, NestJS, Express.js, PostgreSQL, MySQL, and secure JWT authentication. Strong expertise in creating responsive UIs, optimizing performance, and implementing Docker for consistent development..

Technical Skills

- **Languages**: JavaScript, TypeScript .
- **Frontend**: Angular, Next.js, React.js, HTML5, CSS3, Tailwind CSS.
- **Backend:** Node.js ,Express.js, Nest.js, Socket.io.
- **Database:** MongoDB, MySQL, PostgreSQL, Database Optimization.
- **Tools:** Git, GitHub, Docker.
- **Other Skills:** Problem Solving, OOP, WebSockets, WebRTC, JWT Authentication.

Experience

Fullstack Developer   *New Delhi*
Eternal TechVerse Pvt. Ltd.   *Dec 2024 – May 2025*

- Developed and maintained full-stack web applications using **React.js, Node.js, and MySQL**, improving user engagement and load speed.
- Built secure RESTful APIs and integrated **JWT**-based authentication for role-based access.
- Collaborated with product managers and QA to ship new features and resolve bugs efficiently.
- Contributed to Agile sprints, handled deployments, and implemented CI/CD pipelines.

Fullstack Developer   *Jodhpur*
FeliTech Solutions   *January 2024 – December 2024*

- Built admin dashboards and reporting panels using **React.js, Tailwind CSS**, and Context API.
- Developed backend services in **Node.js and Express.js** and designed schemas using **MongoDB and MySQL**.
- Created reusable components and dynamic UIs with enhanced performance and accessibility.
- Collaborated with remote teams to deliver client-ready features on tight deadlines.

Projects

School Management System   *Visit: HSS/Munad* ⬈

- **Tech Stack:** NestJS, MySQL, React.js, Tailwind CSS, Docker
- Built a full-stack app to manage students, staff, classes, and attendance using **NestJS, MySQL, and React.js**.
- Implemented **JWT-based role authentication** and RESTful APIs for secure access control.
- Designed relational schemas with **TypeORM** and implemented file uploads for student documents.
- Ensured mobile responsiveness with **Tailwind CSS** and containerized deployment via **Docker**.

ERP System   *Visit: Private Project*

- **Tech Stack:** Angular, .NET Core, MySQL
- Developed a scalable ERP system using **Angular and .NET Core**, managing company resources efficiently.
- Integrated **JWT authentication and role-based access control** for secure, granular access.
- Designed RESTful APIs for smooth CRUD operations and optimized DB performance.

Crypt Technology *Visit: Private Project*
- Tech Stack: React.js, Express.js, Socket.io, Docker
- Built a frontend in **React.js** and backend in **Express.js** for seamless communication.
- Developed **modular APIs** and used **Socket.io** for real-time updates and data streaming.
- Leveraged **Docker** to ensure scalability and consistent deployments across environments.

Decor System (Multi-page Application) *Visit: Private Project*
- Tech Stack: HTML, CSS, JavaScript, GSAP, jQuery
- Developed a multi-page frontend application with **restricted page access** logic.
- Used **MutationObserver and IntersectionObserver** for smooth, animated transitions.
- Integrated **GSAP** for advanced animations and optimized logic using **JSON**-based settings.

Education

Molana Azad University Jodhpur *Feb 2022 – Mar 2025*
BCA
- **GPA:** 7.39

Molana Senior Secondary School, Jodhpur *June 2019 – Mar 2020*
12th
- **Grades:** 76.20%
